DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1; 5-7; 9 and 11, in Paper No. 3 is acknowledged.
2. Claims 2-4, 8 and 10 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to non-elected invention. Election was made without traverse in Paper No. 3.
3. Further restriction to one of the following inventions is required under 35 U.S.C. 121:
 - IA. Claims 1, 5-7 and 9, drawn to a system for filling medication into a container, classified in class 53, subclass 247.
 - IB. Claim 11, drawn to a method of organizing medications, classified in class 53, subclass 411.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions IB and IA are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case (1) the apparatus as claimed can be used to practice another and materially different process one having a step of opening one hopper door at a time to allow medication of a respective hopper to fall into a respective bag of the container, and/or a step of sealing the container with a reclosable fastener; (2) the process as claimed can be practiced by another materially different apparatus such as one

having check blocks for marking on the front surface of the bags, and/or having a shelf disposed under the nozzles.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Mr. Auzville Jackson, Jr. on July 14, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Louis K. Huynh whose telephone number is (703) 306-5694.

The examiner can normally be reached on M-F from 9:30AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi I. Rada can be reached on (703) 308-2187. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9302 for regular communications and (703) 872-9303 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1148.
